60 Years of Artcobell:

A LEGACY OF SAYING “YES” TO EDUCATION

Introduction

In 2025, Artcobell marks six decades of **transforming learning spaces** with **innovative**, durable, and adaptable furniture. Guided by The Strategy of Yes, we continue to embrace challenges, **drive innovation**, and **meet the ever-evolving needs of education**.

What Is the Strategy of Yes?

The Strategy of Yes is Artcobell’s commitment to pushing boundaries and finding solutions. It’s about:

- Saying “**Yes**” to collaboration to build better learning environments.
- Saying “**Yes**” to **innovation**, from flexible seating to collaborative spaces.
- Saying “**Yes**” to quality and durability.

This mindset has fueled 60 years of nationwide growth, creativity, and impact in schools.

A 60-Year Journey: Leading Through Change

Education has evolved, and for 60 years, Artcobell has stayed ahead by listening, **adapting**, and **innovating**. From ergonomic designs to modular solutions and sustainable materials, **we’ve embraced change** through The Strategy of Yes. Here’s how Artcobell’s commitment has shaped its legacy:

- **Durability That Lasts:** Schools nationwide still use Artcobell products from decades ago.
- **Adaptability for Today’s Classrooms:** Artcobell continues to **innovate solutions** that meet the demand for flexible, mobile, and collaborative spaces.
- **A Partner in Education:** We partner with schools to design environments that inspire learning and growth.

Saying Yes to the Future

As Artcobell celebrates its 60th anniversary, **it’s not just a look back at achievements—it’s a celebration of the road ahead.**

- **New Ideas:** Continuing to evolve with technology, design trends, and teaching methods.
- **Sustainability:** Designing products that stand the test of time and support a greener future.
- **Collaboration:** Partnering with educators to address tomorrow’s challenges today.

Join Us in Celebrating 60 Years of Yes

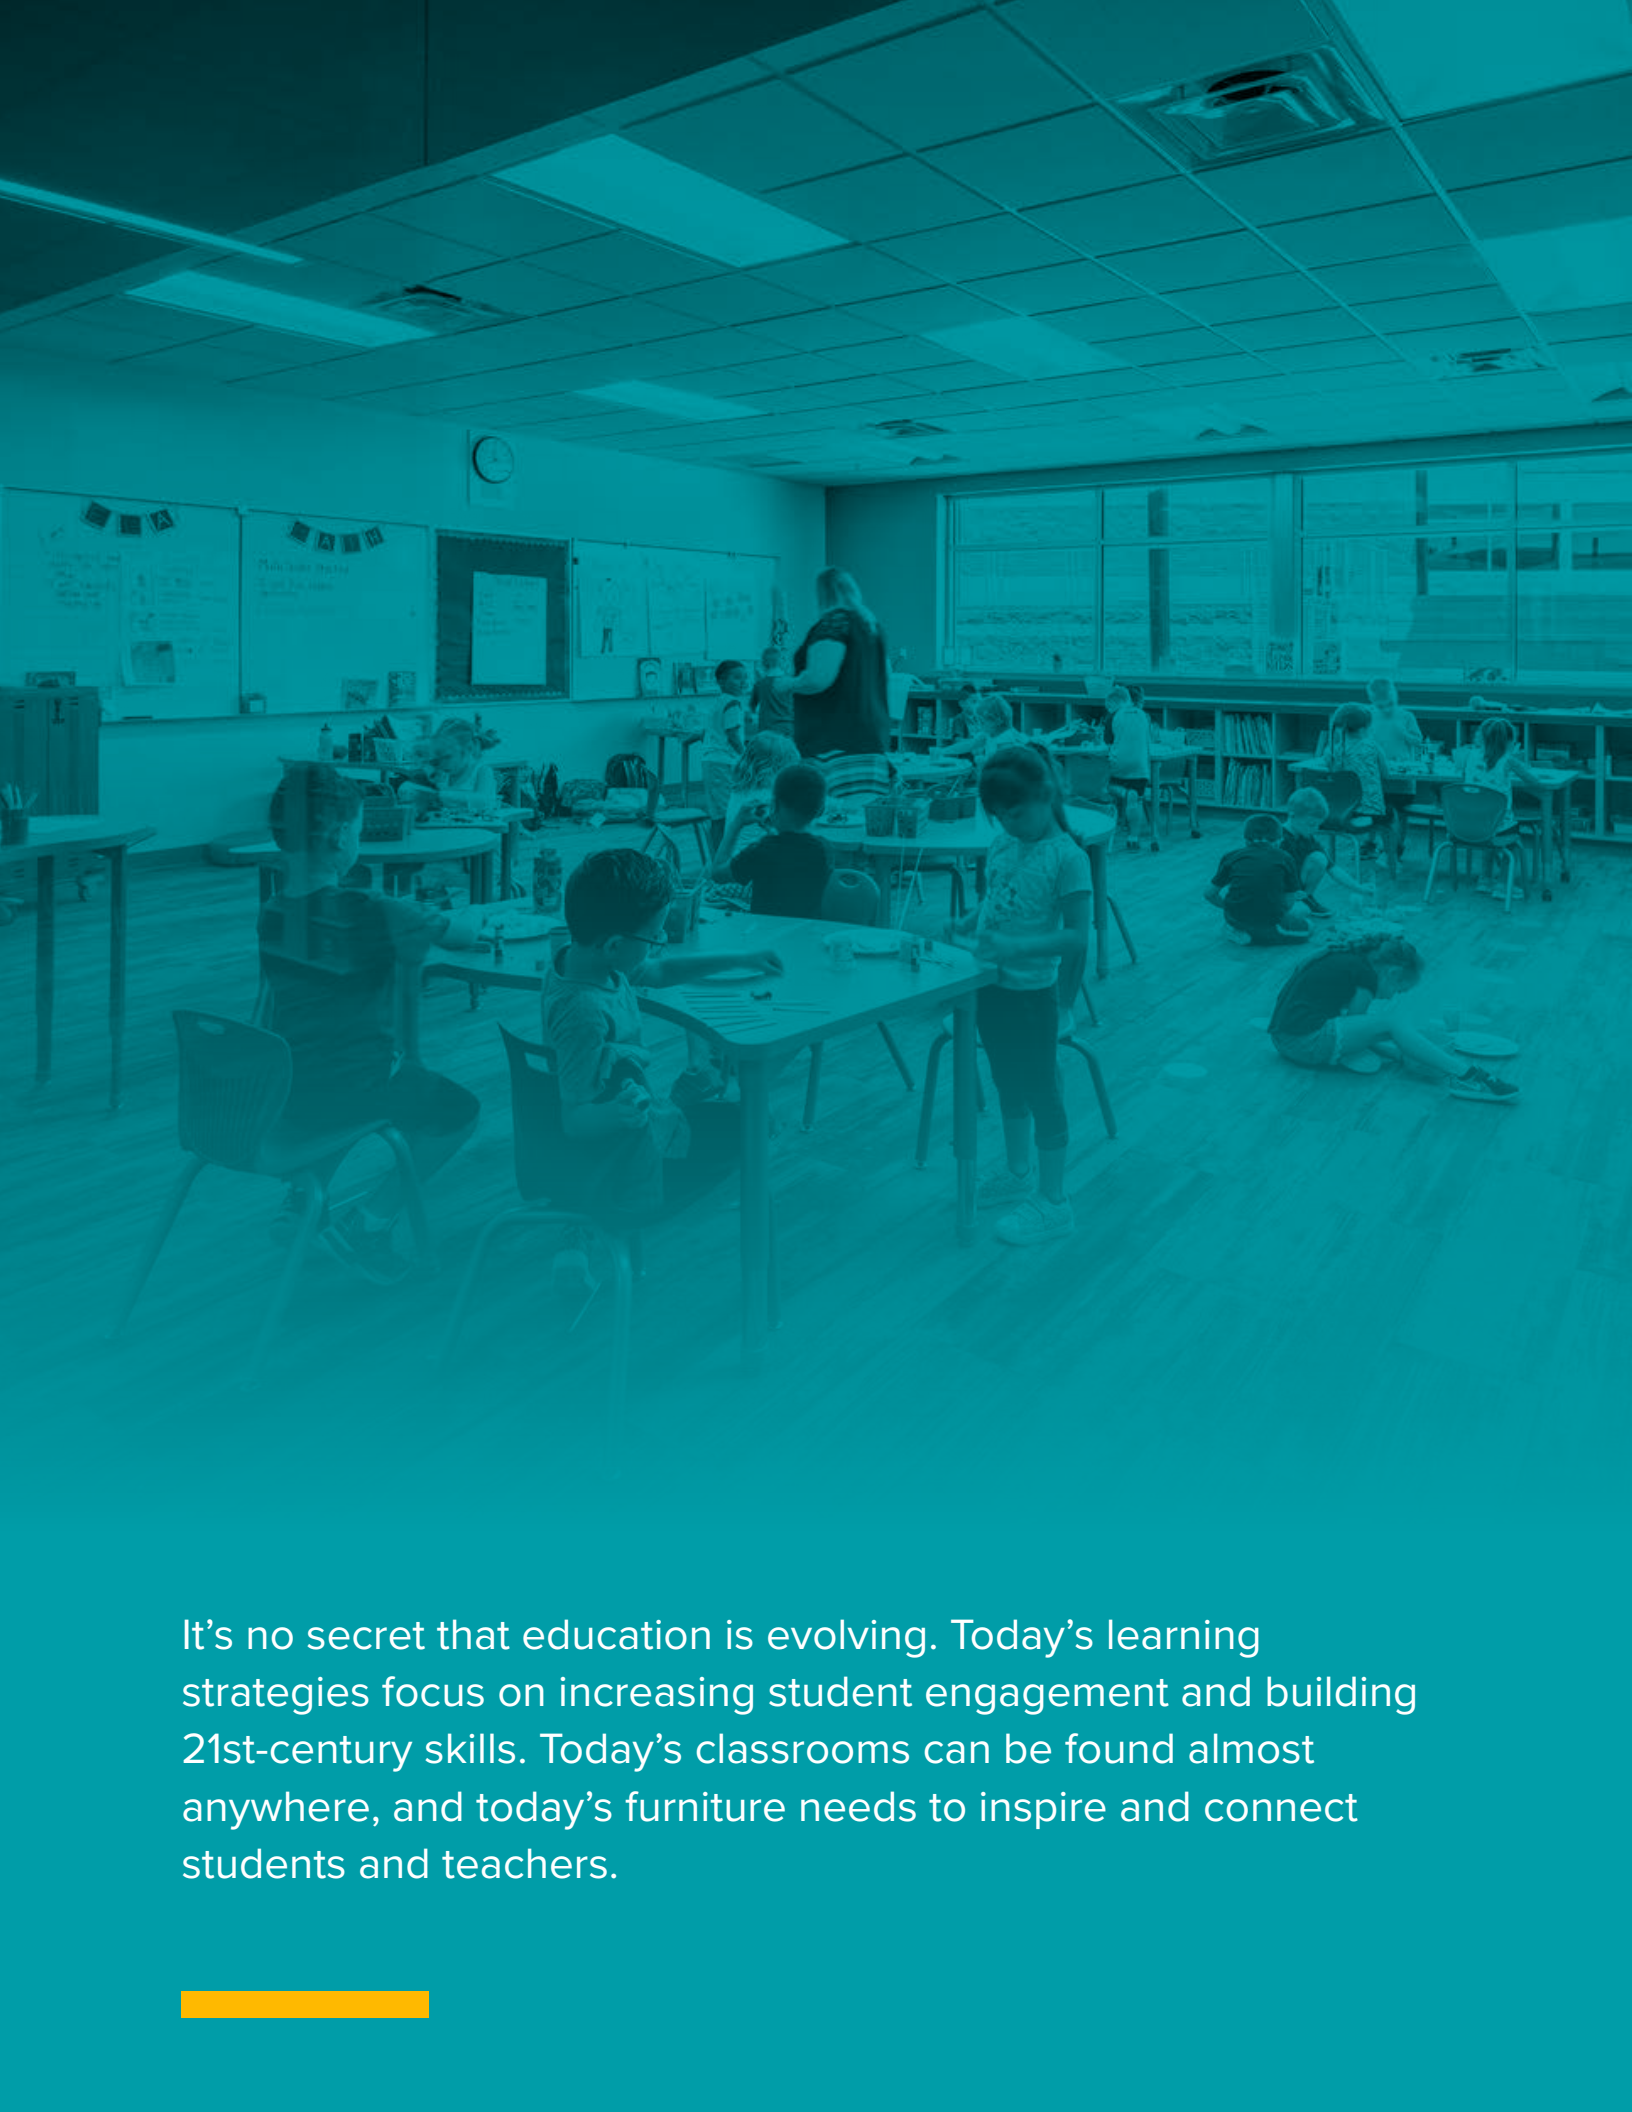

Artcobell’s 60th anniversary isn’t just a celebration of the past—it’s a call to action for the future. As we look back at the thousands of classrooms and millions of students touched by Artcobell furniture, we’re excited to keep moving forward, one “Yes” at a time.

Thank you for being part of our journey. Here’s to the next 60 years of transforming education.

Ready to explore how Artcobell can say “Yes” to your school’s needs?

Let’s design the future of learning—together.

It's no secret that education is evolving. Today's learning strategies focus on increasing student engagement and building 21st-century skills. Today's classrooms can be found almost anywhere, and today's furniture needs to inspire and connect students and teachers.

Just like technology, curriculum, and crayons, **Artcobell** furniture helps teachers create spaces that spark creativity, enhance collaboration, and expand the imagination.

SCHOOL OF PUBLIC HEALTH

Artcobell interviews renowned ergonomist Dr. Mark Benden on the science behind movement.

DR. MARK E. BENDEN CPE
Texas A&M
School of Public Health

“

What we've found over the last few years in our laboratory here at Texas A&M and classrooms around the state is that children who are able to move, fidget, get up, walk around, stand, take a break from too much sitting still... they perform better within their own abilities. As students fatigue from sitting in one position, they seek other ways to release energy to help them stay on task. Our research has shown that when children are permitted to move (through the furniture and/or the teacher's guidance), they are less disruptive and stay on task longer.

”

NXT MOV was designed in collaboration with QDesgin, the Chicago-based industrial design firm.

“

Working on NXT MOV was not only an aspirational design challenge but a personal challenge for us. The entire Q Design team was and is invested in improving educational seating. Personally for me, as a father of three-grade school children, I was motivated to make a difference in my own children's educational experience. Artcobell gave us the opportunity and partnership to enrich the educational environment through innovative design. When a design team is able to make advancements in not only a product but also create positive change in the environment, that is the most enriching of achievements.
